

TALUS Insect Growth Regulator

Talus offers selective and persistent control of key Hemiptera Whitefly pests, with no harmful effects to beneficial insects and pollinators.

Active Ingredient:

Buprofezin 70%

Key Registered Crops:

Greenhouse cucumbers, tomatoes, peppers, and ornamentals.

IRAC Group:

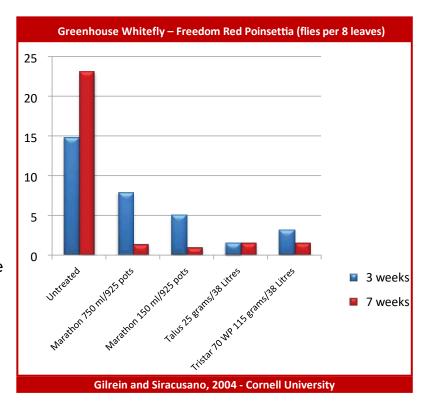

Group 16

Packaging Size:

4 x 500g

- Outstanding efficacy on difficult to control whitefly pests
- Delivers toxicity to pests via contact, ingestion & vapour activity
- Excellent crop safety
- Safe for most beneficial insects
- Unique mode of action (IRAC 16)
- Highly compatible with IPM & resistance management programs
