

SCORPIO

SCORPIO Ant & Insect Bait

Scorpio is a soil applied insecticide containing spinosad in a highly compressed wheat pellet formulation that requires no mixing or spraying. It can be used around fruits, vegetables, ornamentals, flowers, turf and other sites.

Scorpio provides exceptional protection against many varieties of ants and cutworms, and limits damage caused by spotted wing drosophila and wireworm.

Scorpio is safe (approved for organic use), efficient (works 24 / 7 for up to 4 weeks) and effective (controls pests without the residue).

Active Ingredient:

Spinosad 0.07%

Key Registered Crops:

Corn, Ginseng, Cauliflower,
Tomatoes, Grapes

IRAC Group:

5

Packaging Size:

20 KG bag
